**Background:**

*The following questions relate to situations that an employing agency may consider to be risk factors. Your responses will not necessarily prevent you from entering fieldwork but may require discussion with the field agency prior to placement.*

If your answer to any of the following questions is “yes,” please explain thoroughly on a separate sheet and attach it to this application or schedule a private interview with the faculty internship supervisor.

If there is any other information about you or your background that is not called for elsewhere in this application but which might be relevant to your placement, please provide it also. Use separate pages, if necessary, and attach.

**Other information:**

A Learning Contract is required for the internship. The broad educational objective for all students in internships is to acquire knowledge, skills, and insights that will facilitate entrance into a professional role in a career. Please see the Learning Contract and the directions for preparation for internship. Failure to fulfill all the obligations of your internship will result in a failing grade.
