The Women and Spirituality Conference was born in 1981 with an evening lecture attended by 75 people. The purpose was to provide a supportive and nurturing setting for a dialogue of caring and mutual respect between and among women and interested men from many spiritual and religious traditions. Since then, the conference has grown to average approximately 800 participants with 80-120 workshops. The conference does not advocate or exclude any view and continues to foster an understanding and celebration of similarities and differences. May we continue to aid one another on our individual and communal spiritual journeys.

The Keynote Speaker this year will be Shakti Gawain. She is a pioneer in the field of personal growth and consciousness whose workshops, retreats, books, and CD’s focus on personal healing, the expression of creativity, and envisioning the future to nurture change in oneself and in the world. Her many best-selling books, including Creative Visualization, Living In The Light, and The Path of Transformation, have sold more than six million copies in thirty languages worldwide. For over twenty years, Shakti has led workshops internationally, and has facilitated thousands of individuals in developing greater awareness, balance, and wholeness in their lives. She and her husband, Jim Burns, live in Mill Valley, California, and on the island of Kauai in Hawaii.

At this year’s conference, Shakti Gawain will discuss the importance of working toward greater consciousness, awareness, balance, and wholeness. She also will share personal stories of her own journey and her experiences with activism. For more information about Shakti Gawain, please visit her Web site at www.shaktigawain.com.

**CHRIST, A SYMBOL OF THE SELF**
(Also offered in Session IV)

**ARMSTRONG HALL 321** Paper/discussion

Christians have diverse understandings of Jesus because the God-image Jesus Christ is a symbol of the Self in each individual and the passion of Christ symbolizes every person’s painful struggle toward perfection. This center of divinity in each of us nudges us toward wholeness. In Hinduism the symbol of the Self is Krishna. More such symbols are depicted in other spiritual traditions and even in the Judeo-Christian tradition. Insisting that Jesus is an external, exclusive savior misinterprets the sacred texts.

Jeanette Blonigan Clancy, MA in systematic theology, is an educator and writer who has studied mythology, Jungian psychology, scripture, women’s spirituality, and comparative religion.

**DIVINE WARRIOR TRAINING: RECLAIMING YOUR INNATE HEALING POWER**
(Also offered in Sessions II, III, IV)

Divine warriors recognize the divinity of all persons and all creation and work for the highest and best good of all. This workshop will introduce the concept of divine warrior—one who lives out of their divine essence, discovers their life’s purpose, honing the skills they bring into the world and transcends the challenges they face. Sacred space will be created for each participant to work with self-reflective experiential exercises that help participants uncover belief patterns that limit their ability to heal. A closing circle allows opportunity to share insights with other participants.

Thomas Capshew is a former attorney and professor. He is a writer and motivational speaker, working on a book entitled Divine Warrior Training. He is on faculty at Windemere Institute of Healing Arts.

**T’AI-CHI CH’UAN FOR RELAXATION, HEALTH AND MEDITATION**
HIGHLAND NORTH DANCE STUDIO

**Movement activity/experiential/discussion**

The Tao te Ching says, “The Journey of a thousand miles begins beneath your feet.” This workshop will be an introduction to some basics of T’ai-Chi Ch’uan and Chi Kung that you can use in your daily life to promote relaxation, to support good health, and to practice meditation. The workshop will include a warm-up set, standing meditation, cloud hands posture from the Yang style, 150-posture T’ai-Chi form, wrap-up and some discussion. Participants should wear loose, comfortable clothing and flat shoes (athletic) with good structural support. Bring some drinking water!

Julie Cisler is a seventh generation disciple of Yang style T’ai-Chi Ch’uan. She studies with Situ Ray Hayward and Situ Paul Abdella at the Twin Cities T’ai-Chi Ch’uan studio where they practice the 150-posture solo form. She previously studied a different short Yang-style form for a number of years and considers T’ai-Chi a practice that combines spiritual, mental as well as physical training.

**ALTERNATIVE PATH AND PAST LIFE REGRESSION**  
(Also offered in Session II)

**STUDENT UNION 284 A/B Experiential**

Participants will be guided gently into a meditative state to explore the path they have walked since birth, examine the forks they have taken, and continue on the path as far as it will allow them to see, including beyond this current incarnation into future lives. We will then reverse the process, tapping into the collective unconscious, and regress into past incarnations. Alternative path regression allows the seeker to follow his or her life’s progression through guided imagery, taking the path not taken at critical decisive moments, to see where alternate decisions might have led. This careful process reveals motivations behind choices and allows the seeker to wholly own the chosen path. For those interested in past life regression, this method also makes that possible. Participants should bring pens and paper.

JoAnne Makela serves as a guide using intuitive tools such as the Tarot, centering exercises, breath work, guided imaging, and path regression. She has been a student and reader of Tarot since childhood and comes from a long line of intuitive women. She searches archetypes and consults the thoughtful voices of her own muses to inspire, counsel, and train clients in releasing their inner voices and is available for individual counseling, regressions, and Tarot readings.

**QIGONG FOR INNER PEACE**

**STUDENT UNION 284C**  Discussion/experiential

Qigong is an ancient method of healing and it has been practiced in
China for thousands of years. Each of us has energy flowing through
our bodies. When energy gets out of balance or stuck, blockages can
occur. Learning about energy and practicing the simple meditation that
will be taught in this class will help balance internal energy and help
build a healthy body—physically, emotionally and spiritually.

Lois Weber began taking Spring Forest Qigong classes over six years
ago to help with pain management and to heal a non-union fracture
in her leg. She has taken the four levels of these classes from Master
ChunyiLin. She retired from Minnesota State University, Mankato in
2001 where she supervised and coordinated the operation of Office
Support Services and Postal Services.

MARY OF MAGDALA, LEADER IN THE EARLY CHURCH! AN ALTERNATE VIEW TO THE DA VINCI CODE
ARMSTRONG HALL 202 Paper/discussion
With Mary Magdalen, we are limited in the factual information we have. The writings have come to us through Patriarchal editing. So we seek as sources the images which have come down to us through the centuries since early Christianity. Mary’s prompt and total acceptance marks the start of a journey and a presence of women, of which traces are to be found in Acts, and which in often obscure and silent ways have determined so much of the history of the early Christian community.

WE WILL HARBOR YOU: A HISTORY OF THE MN BATTERED WOMEN’S MOVEMENT

ARMSTRONG HALL 219 Video/discussion
This workshop will present the regional history and systems-changing repercussions of the battered women’s movement, a phenomenon that occurred in St. Paul in the early 1970’s. We will preview excerpts from our new documentary video with this title and discuss the filmmaking process. The video traces the 30-years of the movement’s social change work to the present, drawing on Minnesota’s women leaders, current battered women’s programs, and providing role models of activists whose work created almost unbelievable systems of change—in law enforcement, in the courts and criminal justice system, in hospitals and in families. Our goal is to educate and inspire participants to become agents of change as well.

ARMSTRONG HALL 208 Experiential/guided imagery/child-friendly

Most traditions refer to seven major chakras, the main energy centers or "wheels of light" within our bodies. Each chakra has a particular purpose. As girls and women, we often learn to ignore or diminish the gifts of the sixth chakra (sometimes known as the "third eye")—knowledge, imagination, intuition, discernment, and wisdom. This experiential workshop begins with a guided imagery that emphasizes the six chakra's gifts and continues by exploring muscle-testing, pendulums, rune stones, and other creative approaches for accessing one's own intuitive wisdom. Books, tarot, wisdom, angel cards and other intuitive tools will be available for review before, during and after class. Limited to 30 participants.

Cindy Lukas, MA, Human Development, is an explorer, Advanced Reiki practitioner, consultant, teacher, symbolic artist, and owner of Touchstones, LLC, a company dedicated to honoring and celebrating women's wisdom in creative ways. DISCOVERING THE HEALER WITHIN;
JOURNEYING WITH INTERACTIVE GUIDED IMAGERY
(Also offered in Session III)

ARMSTRONG HALL 108 Experiential
We each have an inherent ability to heal ourselves. Interactive Guided Imagery (IGI) utilizes imagery—the natural language of the unconscious mind—to assist in connecting with the deeper resources available to each of us at the affective and somatic levels. Unlike a guided imagery process that offers external and supposedly “better” images for the seeker, the IGI guide works in a manner that allows each individual to become aware of their own unique unconscious imagery. Because it uses the symbolic language of the right brain, Interactive Guided Imagery allows each person to communicate with his or her unconscious mind. This process opens the door to their own inner language and allows them to move toward their own expression of wholeness and healing. The IGI process is capable of bringing about profound psychological and physiological change. This workshop is intended to experientially introduce the concepts of IGI. Supplemental information is available to assist the participants in their individual journeys of exploration and healing.

Meg Stump, MA, Licensed Marriage and Family Therapist, is certified in the practice of Interactive Guided Imagery (IGI). Meg works with individuals and families through Counseling Services of Southern MN, and St. Peter, MN.

SOUL STEPS - THE ART OF CONSCIOUS-AEROBIC EXERCISE
(Also offered in Session IV)

ARMSTRONG HALL 310 Discussion/experiential/
power point/presentation
Aerobic activity offers a magical vehicle for the transformation and re- invention of self. The body releases endorphins. An invisible boundary dissolves. Conscious aerobic exercise illuminates this magic with intention, infuses it with the essence of the Masters, Teachers, Angels, Guides and Loved Ones. With body in motion, heart open, and mind alert - assistance descends. Adversity is transformed. Goals are attained. This is not a workout routine.

Cathryn Taylor is a Personal Life Coach, published author and licensed counselor and embodies the essence of “conscious aerobic exercise.” At age 54, while training for her first marathon, she literally stumbled onto this life-altering method for attaining success—not only in the gym—but in every area of one’s life. She is now dedicated to assisting others in doing the same.

INTRODUCTION TO ANIMAL/INTERSPECIES COMMUNICATION
MORRIS HALL 212 Discussion/child-friendly
The sixth sense is a natural sense humans have and animals share. Often the things we write off to coincidence are really our underdeveloped sixth sense at work. We each have a natural ability to communicate using thoughts, images, feelings or words through the use of telepathy. Telepathy is the communication of feelings (pathos) over distance (tele). All living beings are wired to send and receive messages to one another in this way. When an old friend who’s been on your mind calls “out of the blue”, it’s not just a coincidence. In reality, there’s an ancient language at work. One we and our animal companions have in common.

Marilyn Tokach is a compassionate empath, healer and teacher, seeking to empower both animals and humans to bring mutual understanding and harmony into their lives. She has extensive corporate experience in human resources/management with Bachelors and Masters studies in psychology and business administration which complements her work with people and animals. Active in rescue and animal related issues, she has trained dogs for 20+ years and participates in obedience, conformation, agility and Schutzhund while living with dogs, birds, fish and a cat.

PEACE TRAIN TO BEIJING: RELIVING AND REVIVING THE SPIRIT OF ACTIVIST WOMEN

ARMSTRONG HALL 215 Video/discussion
Eleven years after the 4th UN Conference on Women in Beijing, the moving spirit, the interchange of ideas, the mingling of cultures, the excitement of change are still alive and feeding the actions of the MN women who experienced that life-changing event. Now they offer to those who did not attend the opportunity to share in the earnest debates, the difficulty of forming a peaceful community among peace activists, the struggles of women in every corner of the globe to break out of the oppressive conditions under which they live. The video, Peace Train to Beijing, educates and inspires. The “hot” topics of 1995 are just as “hot” today. In the discussion period, we will review the progress made and the work still to be done by the next generation of determined and spirited women.

The WILPF Arts Committee was organized and continues to function as an action-oriented group of women artists dedicated to advancing the 12 areas of concern spelled out in the Platform for Action of the UN 4th World Conference on Women. DISCOVERING THE HEALER WITHIN; JOURNEYING WITH INTERACTIVE GUIDED IMAGERY

We each have an inherent ability to heal ourselves. Interactive Guided Imagery (IGI) utilizes imagery—the natural language of the unconscious mind—to assist in connecting with the deeper resources available to each of us at the affective and somatic levels. Unlike a guided imagery process that offers external and supposedly “better” images for the seeker, the IGI guide works in a manner that allows each individual to become aware of their own unique unconscious imagery. Because it uses the symbolic language of the right brain, Interactive Guided Imagery allows each person to communicate with his or her unconscious mind. This process opens the door to their own inner language and allows them to move toward their own expression of wholeness and healing. The IGI process is capable of bringing about profound psychological and physiological change. This workshop is intended to experientially introduce the concepts of IGI. Supplemental information is available to assist the participants in their individual journeys of exploration and healing.

Meg Stump, MA, Licensed Marriage and Family Therapist, is certified in the practice of Interactive Guided Imagery (IGI). Meg works with individuals and families through Counseling Services of Southern MN, and St. Peter, MN.

CHRIST, A SYMBOL OF THE SELF
(Also offered in Session II)
ARMSTRONG HALL 321 Paper/discussion
Christians have diverse understandings of Jesus because the God-image, Jesus Christ, is a symbol of the Self in each individual and the passion of Christ symbolizes every person’s painful struggle toward perfection. This center of divinity in each of us nudges us toward wholeness. In Hinduism the symbol of the Self is Krishna. More such symbols are depicted in other spiritual traditions and even in the Judaeo-Christian tradition. Insisting that Jesus is an external, exclusive savior misinterprets the sacred texts.

SOMETHING FROM NOTHING: HOW TO HARNESS THE CREATIVE POWER OF THOUGHT TO TRANSFORM YOUR LIFE
(Also offered in Session I)
ARMSTRONG HALL 215  Formal paper/lecture
Thought. It is our primary creative force. Everything in our lives, from shoes to relationships, exists because someone first thought of it. Yet this magnificent, fundamental process goes underdeveloped. Harnessing the power of thought is the first step in creating goals that succeed, dreams that become reality and a life that matters. We will explore the potential for transformation through mastery of Thought.

FEMININE INSIGHTS INTO CELTIC SPIRITUALITY AND THE MUSIC OF THE CELTIC HARP
(Also offered in Session III)
STUDENT UNION 253/254  Presentation/harp performance
The continued interest in Celtic spirituality and music reflects today’s overwhelmingly busy world, which is bombarded with media, technology and information. Many of us are seeking simplicity and connection with what’s true and eternal. Celtic spirituality has this simplicity at its heart and Celtic music is a beautiful illustration of this. During this workshop you will hear the story of how a Celtic harp came into the presenter’s life as a gift from an Irish friend and how that gift set her on the path of fulfilling her life’s purpose of bringing beautiful music to people. She will share insights from her personal research on the feminine aspects of Celtic spirituality and tradition as it relates to her music, and on the role of women in Celtic history, interspersed with performances of Celtic tines (many written by or in honor of women) on her harp to illustrate those insights. She will also share insights gained from her recent trip to Ireland.
Amy Kortuem is a harpist from Mankato, MN. She has performed at countless events since receiving a Celtic harp as a gift 17 years ago, with audiences including everyone from preschool children to presidents. She has made three recordings of her music, each of which explores aspects of the spiritual journey on which the harp has taken her.

Your God-Given Gift from Birth Until Death… The Subconscious Mind

(Also offered in Session I)

Experiential

STUDENT UNION 204

A person can turn around a negative self-concept that has been planted in the subconscious mind by a family member, friend, co-worker, bad experience, etc. You will be shown how to turn it around and get back on a positive track. The subconscious mind is the part of us that causes permanent change while the conscious mind reasons, manages input and analyzes thus causing only temporary change. Techniques will be shared about how to be the driver behind the wheel of one’s subconscious mind and removing all the other would-be drivers—McDonalds, Marlboro, TV, etc., to drive this valuable God-given gift of our subconscious mind.

(Also offered in Session I)

Experiential

ARMSTRONG HALL 217 Paper/discussion/story-telling

During the last decade there have been 1,500 medical research projects and papers that support the conclusion that spirituality has a positive role in sustained health results. The National Institute of Health Mind/Body indicates that thoughts, emotions, attitudes, belief systems, coping skills and support systems can provide a positive impact on health. We will use stories, interactive exercises and group activity to empower individuals of any background to maintain the kind of thinking and attitudes that liberate vital, life-enhancing energy.

SOUL STEPS - THE ART OF CONSCIOUS-AEROBIC EXERCISE  
(Also offered in Session II)  
ARMSTRONG HALL 310  Discussion/experiential/  
power point/presentation  
Aerobic activity offers a magical vehicle for the transformation and re-  
invention of self. The body releases endorphins. An invisible boundary  
dissolves. Conscious aerobic exercise illuminates this magic with  
tention, infuses it with the essence of the Masters, Teachers, Angels,  
Guides and Loved Ones. With body in motion, heart open, and  
and mind alert—assistance descends. Adversity is transformed. Goals are  
attained. This is not a workout routine.  
Cathryn Taylor is a Personal Life Coach, published author and licensed  
counselor and embodies the essence of "conscious aerobic exercise."  
At age 54, while training for her first marathon, she literally stumbled  
onto this life-altering method for attaining success—not only in the  
gym—but in every area of one’s life. She is now dedicated to assisting  
others in doing the same.

bodies. Meditation, massage and breath work, combined with hula hoop  
dancing allow new and exciting ways to experience the body in rest and

a foundation to grow upon long after the conference has ended.

for 19 years. Her healing path has given her a love of hoop dance and  
a desire to share its power with as many people as possible.

THE MEDICINE WHEEL  
(Also offered in Session III)  
Verbal presentation/construction of a wheel of stones,  
positioning on the wheel, experiential,  
STUDENT UNION 202  Discussion  
Some familiarity with meditation or shamanic journey techniques will  
be helpful.  
In this workshop we will learn about medicine wheels in general and  
the role they play in community. We will construct a wheel of stones  
and find our places on the wheel. We will deepen into these places in  
meditative/trance state to light drumming and then people will be able  
to ask questions of each other, learning from that place on the wheel.  
We will have time for questions and reflection.  
Ann Marie Waterhouse has a Master’s Degree in Human Development  
from St. Mary’s University of Minnesota. She studied the Wheel as  
part of her Master’s Program and uses it as a way to deepen her  
own spiritual journey. She teaches regularly through the Reformed  
Congregation of the Goddess-International and Mimosa Bookstore,  
based in Madison, WI.

MEDITATION FOR WORLD PEACE

workshop, you will learn to experience a different kind of prayer, a  
feeling-based prayer. This Qigong meditation will assist you in feeling  
and envisioning a world of peace and love.  
Lois Weber began taking Spring Forest Qigong classes over six years  
ago to help with pain management and to heal a non-union fracture  
in her leg. She has taken the four levels of these classes from Master
