The Women and Spirituality Conference was born in 1981 with an evening lecture attended by 75 people. The purpose was to provide a supportive and nurturing setting for a dialogue of caring and mutual respect between and among women and interested men from many spiritual and religious traditions. Since then, the conference has grown to average approximately 800 participants with 80-120 workshops. The conference does not advocate or exclude any view and continues to foster an understanding and celebration of similarities and differences. May we continue to aid one another on our individual and communal spiritual journeys.

**2007 Keynote Speaker**

The Keynote Speaker this year will be Marge Piercy. She will discuss why it is important that we claim a past that leads to us and a future that issues from our lives and work in order to create a spiritual life that is truly ours. What would this mean? Immanence vs. transcendence. She will also explore her own religion, Judaism and the attempt to make it one that speaks to and embodies the hopes, dreams, fears, spiritual aspirations and experiences of women. Ms. Piercy is the author of seventeen novels including The New York Times Bestseller Gone To Soldiers, the National Bestseller The Longings of Women and the classic Woman on the Edge of Time; seventeen volumes of poetry, and a critically acclaimed memoir Sleeping with Cats. Born in center city Detroit, educated at the University of Michigan, the recipient of four honorary doctorates, she has been a key player in many of the major progressive political battles of our time, including the anti-Vietnam war and the women’s movement, and most recently an active participant in the resistance to the war in Iraq. A popular speaker on college campuses, she has been a featured writer on Bill Moyers' PBS Specials, Garrison Keillor’s Prairie Home Companion, Terri Gross’ Fresh Air, the Today Show, and many radio programs nationwide. Praised as one of the few American writers who are accomplished poets as well as novelists - Piercy is one of Alfred A. Knopf’s best selling poets - she is also the master of many genres: historical novels, science fiction (for which she won the Arthur C. Clarke Award for Best Science Fiction in the United Kingdom), novels of social comment and contemporary entertainments. She has taught, lectured and/or performed her work at well over 400 universities around the world.

Native American: Your mind, your relationship with yourself and others are reflected in everything around you: your intentions, your actions are causes which return to you as effects. Always there is the pure stream of light of mind within you, to be actualized in right relationship and actions for the good of all. (Dhyani Ywahoo, Tsilagi-Cherokee)

Christianity: All things whatsoever ye would have [others] do unto you, do ye even so to them: for this is the law of the Prophets. (Matthew 7:12)

Confucianism: Surely it is the maxim of loving-kindness: Do not unto others that you would not have them do unto you. (Analects 15, 23)

Judaism: What is hateful to you, do not to [others]. That is the entire Law; all the rest is commentary. (Talmud, Shabbat, 31 a.)

Brahminism: This is the sum of duty: Do naught unto others which would cause you pain if done unto you. (Mahabharata 5, 1.517)

Buddhism: Hurt not others in ways that you yourself would find hurtful.

(Upavishyava 5, 18)

Taoism: Regard your neighbor’s gain as your own gain, and your neighbor’s loss as your own loss. ([Tai Shang Kan Ying P’ien]

Zoroastrianism: That nature alone is good which refrains from doing unto another whatsoever is not good for itself. (Dadistan-rdkin 64.5)

Islam: No one of you is a believer until [you] desire for [others] that which you desire for [yourself]. (Sunnah)

Gnosticism: If you bring forth what is within you, what you bring forth will save you. If you do not bring forth what is within you, what you do not bring forth will destroy you. (The Gospel of Thomas)

Wiccan Rede: And ye harm none, do what ye will, lest in thy self defense it be, ever mind the rule of three.

Bahá’í: If thou lookest for justice, choose thou for others what thou chooses for thyself.

HONORING SELF AS GODDESS
(Also offered in Session II)

ARMSTRONG HALL 215
Experiential
The Sun’s presence is known each day with its rising and setting. The moon energy goes in cycles and has a rhythm of its own that affects all of life. Now the moon energy is waxing in the consciousness of all the world so feminine energy rises. Let us call upon great female deities from diverse cultures and recognize ourselves as channels of positive female energy so that we may heal ourselves and the world.

Renita Beckius is a Master Reiki Healer, a registered nurse, holds a bachelors degree in psychology, and currently is a 2nd year apprentice in the Lynn Andrews Center for Sacred Arts and Training. ARMSTRONG HALL 217 Paper/discussion
This will be a presentation of ideas in God Is Not Three Guys in the Sky: Cherishing Christianity without Its Exclusive Claims, the presenter’s book. It declares that Christianity mistakes its myth for history and its symbol for fact. Its exclusive claims unnecessarily alienate it from the other religions and spiritualities of the world. Buddhists, Hindus, Muslims, Native Americans, Jews, atheists, and pagans can throw light on Christian ideas.

Jeanette Blonigen Clancy, M.A. in systematic theology, is an educator and writer who has studied mythology, Jungian psychology, women’s spirituality, the historical Jesus, and comparative religion.

CHANNELING LOVED ONES
(Also offered in Sessions III)

ARMSTRONG HALL 101 Discussion
Channeling Loved Ones is a workshop in which I channel people who have passed away and wish to communicate with their loved ones in the audience (or vice versa)! The workshop offers them a chance for healing, comfort and closure. This is a John Edwards-style of workshop in which I describe the spirit who is here and then connect with the person with whom they wish to speak to. I will start out by introducing myself, describe what I do and what goes on from my end of things (how it feels for me, how the information comes through, etc). We will spend time going around from person to person, moving randomly according to whoever comes through. If time, the session will be open to requests, where they may ask to speak to someone.

Ronna Boyd has been a professional psychic and medium for 13 years. Besides the Channeling workshop, she offers private counseling sessions and a class that she developed called “Basic Tools for Spiritual Growth”, in which she teaches people how to meditate and develop their own psychic abilities, to help them learn to be their own healer and teacher, allowing them the freedom to follow their path.

BEYOND BELIEF
(Also offered in Sessions III)

STUDENT UNION 201 Experiential
This workshop will expand your mind and nourish your soul. Being free of limiting beliefs connects you to Source - your inner spiritual light. We were created to enjoy peace of mind, happiness and a sense of adventure. You will discover how your health and happiness is based on past conditioning and on what you believe. Your perception of reality may be causing you unhappiness. We’ll take a look and find out. Once we dissolve the limiting beliefs, we can more easily fulfill our passions and desires. You will begin to use a self-inquiry system of questions so you can truly be connected to your Source. The result is more inner peace, emotional freedom, success and happiness.

Lenora Boyle has been a Transformational Coach and workshop leader in the US and abroad for the past 16 years, helping people to be happier by overcoming their limiting beliefs. She is the author of the upcoming book, “the Happiness Zone: How to Get There, Live There and Flourish There”.

TOXIC WASTE ... GOT SOME?
(Also offered in Session II)

ARMSTRONG HALL 303 Discussion/Power point
It has been stated that we can “take it” through our first couple of decades. We eat and drink what we want, often treat our bodies as if they will run no
matter how we attend to them. Then we enter the next couple of decades and may begin to notice some subtle changes (if we are paying attention) or perhaps we are broadsided by the diagnosis of a chronic illness. Often we chalk this up to aging, something to be expected. Consider exploring what it is that we can do to alleviate, or perhaps even reverse some of these symptoms...it just might be a whole lot easier than you think!

MARY MAGDALENE, THE BLACK MADONNA AND EMPOWERMENT
(Also offered in Session IV)

MARY MAGDALENE AND THE BLACK MADONNA

Mary Magdalene and the Black Madonna, though distinct archetypes, can also be equated as one and the same. Both represent hidden aspects that are overlooked, often by mainstream religion - sexuality, partnership and equality; active compassion for the disenfranchised, the forgotten, the marginalized, the poor and suffering; the wisdom and power of the Goddess, and the honoring of one's own spiritual knowing. There are those who think that we are in a time of “Kairos” - the right time for a changing of the gods. Mary Magdalene and the Black Madonna represent aspects of this time that invite humanity to a more empowered and integrated spirituality.

Examples of each will be available to provide inspiration. Materials will be furnished by presenters.

TOXIC WASTE ... GOT SOME?
(Also offered in Session I)
ARMSTRONG HALL 303    Discussion/power point
It has been stated that we can “fake it” through our first couple of decades. We eat and drink what we want, often treat our bodies as if they will run no matter how we attend to them. Then we enter the next couple of decades and may begin to notice some subtle changes (if we are paying attention) or perhaps we are broadsided by the diagnosis of a chronic illness. Often we chalk this up to aging, something to be expected. Consider exploring what it is that we can do to alleviate, or perhaps even reverse some of these symptoms . . . . it just might be a whole lot easier than you think!

INTRO TO ANIMAL COMMUNICATION
(Also offered in Session IV)
MORRIS HALL 102 Story-telling/discussion
The sixth sense is a natural sense humans have, and animals share. Often the things that we write off to coincidence are really our underdeveloped sixth sense at work. We each have a natural ability to communicate using thoughts, images, feelings or words through the use of telepathy. Telepathy is the communication of feelings (pathos) over distance (tele). All living beings are wired to send and receive messages to one another in this way. When an old friend who’s been on your mind calls “out of the blue,” it’s not just a coincidence. In reality, there’s an ancient language at work. One we and our animal companions have in common.

**SESSION III**

**CLAN AND TRIBE REVISITED**  
**MORRIS HALL 208**  
**Paper/discussion**

What is the origin of modern monotheistic patriarchy? Is hierarchy the only natural human organizational structure? We have within us, unconscious memories - deep cultural layers - that point to alternatives to hierarchy, and which speak of the time before the fathers decided to rule. Our modern bipolar culture is a direct descendant from two very different systems of social organization, both of which originated and coexisted prehistorically in the IndoEuropean regions. To understand women's spiritual roots it is both exhilarating and necessary to examine the deep past, which currently is nourishing our future paradigm.

**STUDENT UNION 201**  
**Discussion**

Channeling Loved Ones is a workshop in which I channel people who have passed away and wish to communicate with their loved ones in the audience (or vice versa). The workshop offers them a chance for healing, comfort and closure. This is a John Edwards-style of workshop in which I describe the spirit who is here and then connect with the person with whom they wish to speak to. I will start out by introducing myself, describe what I do and what goes on from my end of things (how it feels for me, how the information comes through, etc). We will spend time going around from person to person, moving randomly according to whoever comes through. If time, the session will be open to requests, where they may ask to speak to someone.

Your perception of reality may be causing you unhappiness. We’ll take a look and find out. Once we dissolve the limiting beliefs, we can more easily fulfill our passions and desires. You will begin to use a self-inquiry system of questions so you can truly be connected to your Source. The result is more inner peace, emotional freedom, success and happiness.

"Midway upon life’s journey, I found myself within a dark forest, for the straightforward pathway had been lost". In this workshop, we will take a look at the process of transformation at midlife as portrayed in myths and folk tales and “spin straw into gold”, as we learn a process of transforming the many pieces of our lives into a meaningful whole. The presenter will share some of her gold - songs and poems she has written about her own midlife journey. If writing helps you birth yourself, this workshop is for you.

There are those who think that we are in a time of “Kairos” - the right time for a changing of the gods. Sacred Space and Place is a thesis project conceived for a master’s degree in Architecture. The thesis proposes to create an experiential landscape, with earthworks and built structures, whereby men and women might seek and encounter the divine feminine. Part I examines the tripartite structure of ritual, the experiential journey of walking the Chartres labyrinth, and archetypal maiden-mother-crone mythologies from across cultures, as the ordering and inspirational basis for the thesis. Part II introduces the site of the thesis project, a landscape discovered in Chanhassen, MN which contains unique geological and ecological features, as well as having a varied history of use as a farm, a spa, a seminary, and now abandoned. The thesis proposes repurposing the site to include a walking mythological journey and a feminist art gallery. It is not necessary to attend both Parts I and II.

MARY MAGDALENE, THE BLACK MADONNA AND EMPOWERMENT  
(Also offered in Session I)  
ARMSTRONG HALL 308  Paper/discussion  
Mary Magdalene and the Black Madonna, though distinct archetypes, can also be equated as one and the same. Both represent hidden aspects alluded to, but often overlooked, in mainstream religion - sexuality; partnership and equality; active compassion for the disenfranchised, the forgotten, the marginalized, the poor and suffering; the wisdom and power of the Goddess; and the honoring of one’s own spiritual knowing. There are those who think that we are in a time of “Kairos” - the right time for a changing of the gods. Mary Magdalene and the Black Madonna represent aspects of this time of change that invites humanity to a more empowered and integrated spirituality.

CONNECTING SCIENCE WITH SPIRITUALITY  
(Also offered in Session II)  
ARMSTRONG HALL 208  Power point  
Are science and spirituality necessarily in conflict? Although Einstein’s relativity, the strange world of quantum physics, and the vibrations of string theory were developed by physicists to model our world, there is a new interest in how these topics relate to energetic work, spirituality and conscious choice. This entertaining multimedia presentation explains how science and spirituality can complement each other and also points out that there are ultimately more questions than answers.

LOVING-KINDNESS MEDITATION:  
THE PRACTICE OF GENTLE FRIENDLINESS  
STUDENT UNION 253  Experiential/discussion  
This workshop teaches a 2500 year old meditation practice that helps us overcome self-dislike and builds proper self-love and self-acceptance. The practice is called “loving-kindness practice” or the practice of “gentle friendliness”. It consists of calling down blessings upon others and ourselves. As we grow in self-appreciation, we find ourselves behaving more gently and lovingly toward others. The practice makes us increasingly able to live without fear or hatred of anyone else.  
Mary Jo Meadow is professor emerita of psychology and religious studies at Minnesota State Mankato, where she was actively involved with the Women and Spirituality conference. She is the author of seven books and many published and presented papers on spiritual practice, she teaches meditation worldwide and has studied meditation techniques in India.

**Intro to Animal Communication**  
(Also offered in Session II)

**MORRIS HALL 102**  
Story-telling/discussion

The sixth sense is a natural sense humans have, and animals share. Often the things that we write off to coincidence are really our underdeveloped sixth sense at work. We each have a natural ability to communicate using thoughts, images, feelings or words through the use of telepathy. Telepathy is the communication of feelings (pathos) over distance (tele).

All living beings are wired to send and receive messages to one another in this way. When an old friend who’s been on your mind calls “out of the blue,” it’s not just a coincidence. In reality, there’s an ancient language at work. One we and our animal companions have in common.
