The Women and Spirituality Conference was born in 1981 and the purpose was to provide a supportive and nurturing setting for a dialogue of caring and mutual respect between and among women and men from many spiritual and religious traditions. The conference does not advocate or exclude any view and continues to foster an understanding and celebration of similarities and differences. May we continue to aid one another on our individual and communal spiritual journeys.

Beyond folklore and fairy tales is the fairy realm, a vibrant, healing reality that awaits you. This session will highlight the aspects of historical and cultural folklore which point to the reality of fairies. It will also give you more information about the appearance, personalities, and intentions of our fairy friends through personal story and experiential fairy readings.

SEXIST GOD-TALK
213 Morris Hall Discussion/experiential God as exclusively “He-Him-His” describes male power as natural, norm, proper, and right, and female power as unnatural, abnormal, improper, and wrong. In this way, the Christian “Lord” promotes male domination and therefore gender abuse. In fact, it promotes all types of inequality by establishing hierarchy and domination as the essential, even sacred, structure of the universe. Those of us still in the Christian tradition can help to transform sexist God-talk with its immoral power structure by taking every opportunity to insert inclusive God-talk into literary and everyday language. This workshop will suggest many ways to diminish the power of “the Lord” by naming the Holy with feminine and non-hierarchical terms.

Jeanette Blonigen Clancy, writer and educator with an M.A. in systematic theology, participates in Mary Magdaline, First Apostle, a Catholic womanpriest group that plans Masses and other events. ENLIGHTENED K9’S
310 Armstrong Hall Discussion-based/child-friendly Throughout history, both canines and humans have shared an overlapping existence. Humans have used canines for work, food, comfort/warmth, and play. Much of mainstream society once again has shifted back to understanding canines through force and dominance. I propose we instead learn to use our brain and spirit to communicate and co-exist with canines. Our understanding and treatment of animals directly affects how we as a society treat others. In this workshop, we will talk about canines and how to communicate, train, and understand them as not just pets but as individual spirits. Lift your own vibration as we enter into a world of enlightened beings.

ETHICAL SPELL-CASTING

208 Armstrong Hall  
Experiential

Spell-casting has a very negative connotation, largely because it is a misunderstood art. Many books present the subject as manipulative energy that allows the primary person to get what she/he wants. This is an extremely distorted view, and does not serve the greater need, which is Harm None. We will discuss the ethics involved in energetic work, the positive and negative results, the tools, the personal responsibility involved, and the ultimate goal. We will then create an ethical spell bag for personal use that does not manipulate others but reinforces self-responsibility.

INTRODUCTION TO ANIMAL COMMUNICATION

219 Armstrong Hall  
Discussion-based/child-friendly age 12 and up

The sixth sense is a natural sense humans have, and animals share. Often, the things that we write off to coincidence are really our underdeveloped sixth sense at work. We each have a natural ability to communicate using thoughts, images, feelings, or words through the use of telepathy. Telepathy is the communication of feelings [pathos] over distance [tele]. All living beings are wired to send and receive messages to one another in this way. When an old friend who has been on your mind calls “out of the blue,” it’s not just a coincidence. In reality, there’s an ancient language at work. One we and our animal companions have in common.

Marilyn Tokach is a compassionate empath, healer, and teacher seeking to empower both animals and humans to bring mutual understanding and harmony into their lives. Extensive corporate experience in human resources/management in interviewing, training/development, and conflict resolution combined with Bachelor’s and Master’s Studies in Psychology and Business Administration complement her work with people and animals. Active in rescue and animal related issues, she has trained dogs for 20+ years and participates in obedience, conformation, agility, and Schutzhund. She lives with dogs, birds, fish, and a cat.

Finding Your Way in the Second Half of Life

214 Armstrong Hall  Discussion-based
There comes a time in the middle of life when what was once important, true, satisfying, and fulfilling is no longer enough. When the terrain ahead begins to feel unfamiliar and calls to be explored. When there is no way back and no way out but to go through. We will explore through our own stories the challenges and gifts of the changes and opportunities that build character, break patterns, and inspire legacy leaving in the second half of life.

An Anatomy of a Holiday: A Mother/Daughter Conflict in One Act

253 Student Union  Discussion/post-play/story-telling
This workshop evolved from the presenter’s writing of a play. A number of people (mostly women) who read this play or only knew of the play’s subject—a train wreck of a holiday with long-term consequences—told their own stories of mother-daughter conflicts and how holidays may exacerbate long-held resentments. This workshop is intended to provide a safe environment to explore the participants’ experiences as mothers or adult daughters caught up in conflict. It is hoped that solutions to these conflicts might emerge, and that women who have created respectful, loving relationships can share their knowledge through discussion of the topic. General questions will be provided to guide the discussion—What is your current relationship with your mother/daughter? What do you treasure about this relationship? Do you have a vision of a more satisfying relationship than the one you have now? If you have a good relationship, to what do you attribute its ongoing ease?

Catherine Mora Cleary is a practitioner of the Wallace Method of Body Restructuring; she has observed how emotions remain stored in the body when conflict is unresolved. She is the author of the play, “An Anatomy of a Holiday,” and was inspired to present this workshop by responses from mothers, daughters, and others who read the play.

REWILDING AT HOME & PLACE

319 Armstrong Hall  Discussion-based/singing/chanting

Ecological restoration begins with reclaiming lost parts of ourselves. The word Rewilding, itself, has many meanings with roots in ideas that have been evolving for over 150 years. Although globally practiced, Rewilding has only recently begun to encompass diversity, social justice, health, and spiritual practices, as well as internal landscapes and corridors of the mind. On a local level, Rewilding can deepen our sense of community. When brought home, Rewilding honors both ourselves and our relationships, each person expressing interconnectedness in their own way.

We will look at images of the area and consider its protection and preservation.

WOMEN’S SPIRITUALITY CIRCLES

306 Armstrong Hall  Experiential/story-telling/discussion/singing

Throughout history, women’s lives have naturally brought them into circles: around the cooking fire, tending babies while others gathered, doing handwork; where they explored the “stories and meanings” of their experiences. Today, we crave those deeper conversations, but likely have to intentionally create the opportunities. Women’s spiritual circles are one way for women to tap into the universal need to try to understand ourselves through speaking our truths, and being listened to with compassion and without judgment. This workshop will provide both the details on how circles function and actual participation in a circle experience.

Virginia Laken [mother] and Beth Halleck [daughter] started a monthly women’s spirituality circle nine years ago after reading The Red Tent. Virginia has a MA degree in Communications and 20+ years of adult
training. Beth is the mother of five children, ages 8-17 and is a trained doula supporting home and hospital births.

FINDING SOLIDARITY WITH INDIGENOUS WOMEN
222 Armstrong Hall Discussion-based
Indigenous women experience the concept of human rights in a unique way based on their history, culture, and communities. Colonization, government policies, wars, and loss of culture have done deep injustice to indigenous women and peoples. All faiths call us to be sisters and brothers, to create a just world where all have a right to work, to voice, and to security – economic, social, and personal safety. To meet this call, we need to understand the realities that indigenous women live. To work toward justice in this world, we need to understand the true state of solidarity, and allow it to shape in our lives.

AN ANATOMY OF A HOLIDAY:

A MOTHER/DAUGHTER CONFLICT IN ONE ACT

This workshop evolved from the presenter’s writing of a play. A number of

people (mostly women) who read this play or only knew of the play’s

subject – a train wreck of a holiday with long-term consequences – told

their own stories of mother-daughter conflicts and how holidays may ex

conflicts might emerge, and that women who have created respectful,

WOMEN’S SPIRITUALITY CIRCLES  
306 Armstrong Hall  
Experiential/story-telling/discussion/singing  
Throughout history, women’s lives have naturally brought them into circles: around the cooking fire, tending babies while others gathered, doing handwork, where they explored the “stories and meanings” of their experiences. Today, we crave those deeper conversations, but likely have to intentionally create the opportunities. Women’s spiritual circles are one way for women to tap into the universal need to try to understand ourselves through speaking our truths, and being listened to with compassion and without judgment. This workshop will provide both the details on how circles function and actual participation in a circle experience.

Virginia Laken (mother) and Beth Halleck (daughter) started a monthly women’s spirituality circle nine years ago after reading The Red Tent. Virginia has a MA degree in Communications and 20+ years of adult training. Beth is the mother of five children, ages 8-17 and is a trained doula supporting home and hospital births.

PERSPECTIVES AND REALITY  
303 Armstrong Hall  
Experiential/powerpoint/discussion-based  
“The greatest revolution of our generation is the discovery that human beings, by changing the inner attitudes of their minds, can change the outer aspects of their lives,” William James, a Harvard Psychologist. Perspective is defined by Webster as, “the ability, natural or acquired, of seeing all relevant data in a meaningful relationship.” Perspectives are like a Kaleidoscope, a small change will create a new design. A perspective is a choice – either conscious or unconscious. This session will provide an understanding of what influences perspective choices and how conscious selection of perspective is a powerful way to impact your life.

**ETHICAL SPELL-CASTING**
208 Armstrong Hall  Experiential
Spell-casting has a very negative connotation, largely because it is a mis-understood art. Many books present the subject as manipulative energy that allows the primary person to get what she/he wants. This is an extremely distorted view, and does not serve the greater need, which is Harm None. We will discuss the ethics involved in energetic work, the positive and negative results, the tools, the personal responsibility involved, and the ultimate goal. We will then create an ethical spell bag for personal use that does not manipulate others but reinforces self-responsibility.

SESSION IV

UNCONDITIONAL TRUST
214 Armstrong Hall  Discussion-based
There is a trust waiting for you that is beyond believing, that goes deeper than anything your mind will accept. With this trust you can discern your authentic voice from any other voice in you. You can discern your true wisdom from the beliefs your mind holds. Trust of any other person or condition first requires complete trust in you. You already know what is true for you that your beliefs may keep you from seeing.
In this session we will explore ways to have the trust that allows all other trust. You already know what is true for you, but your beliefs may keep you from seeing it. What if you could trust yourself unconditionally, completely, totally? What if you could not make a mistake? What if you had what you needed whenever you needed it? What if you knew you could not have done anything differently?

308 Armstrong Hall  Discussion-based/powerpoint

SEXIST GOD-TALK
213 Morris Hall  Discussion/experiential
God as exclusively “He/His/Hers” describes male power as natural, normative, proper, and right, and female power as unnatural, abnormal, improper, and wrong. In this way, the Christian “Lord” promotes male domination and therefore gender abuse. In fact, it promotes all types of inequality by establishing hierarchy and domination as the essential, even sacred, structure of the universe. Those of us still in the Christian tradition can help to transform sexist God-talk with its immoral power structure by taking every opportunity to insert inclusive God-talk into liturgical and everyday language. This workshop will suggest many ways to diminish the power of “the Lord” by naming the Holy with feminine and non-hierarchical terms.

SESSION IV

Come in to find and feel that spark of inspiration within yourself, and help your child to be inspired. Stories lift us up when we most need lifting and offer hope when we most need it.

It benefits those from all walks of life who want greater physical health, emotional aliveness, and a sense of ease in being who you are. It is about the transformation from the one you think you are to the one you truly are.

REWILDING AT HOME & PLACE

319 Armstrong Hall  Discussion-based/singing/chanting
Ecological restoration begins with reclaiming lost parts of ourselves. The word Rewilding, itself, has many meanings with roots in ideas that have been evolving for over 150 years. Although globally practiced, Rewilding has only recently begun to encompass diversity, social justice, health, and spiritual practices, as well as internal landscapes and corridors of the mind. On a local level, Rewilding can deepen our sense of community. When brought home, Rewilding honors both ourselves and our relationships, each person expressing interconnectedness in their own way.

THE SPIRITUALITY BEHIND SPECTACULAR SUCCESS

311 Armstrong Hall  Discussion
Twenteyeight religions, philosophies, and moral/ethical systems include versions of the Golden Rule in their teachings. This universal emphasis means that spirituality is an inner experience expressed through worldly relationships. The spirituality behind spectacular success results from three ingredients: the relationship you have with yourself, creating success for others, and passing power to others. Real world examples show how to use the spiritual ingredients to create spectacular personal and professional success.

FINDING SOLIDARITY WITH INDIGENOUS WOMEN  
222 Armstrong Hall  Discussion-based 
Indigenous women experience the concept of human rights in a unique way based on their history, culture, and communities. Colonization, government policies, wars, and loss of culture have done deep injustice to indigenous women and peoples. All faiths call us to be sisters and brothers, to create a just world where all have a right to work, to voice, and to security — economic, social, and personal safety. To meet this call, we need to understand the realities that indigenous women live. To work toward justice in this world, we need to understand the true state of solidarity, and allow it to shape in our lives.
